

Tells Fat People Perverting Craving For Wrong Foods Must Be Over- come.

Says Arbolone Tablets Does This Reduces Weight, Too.

The person who is too fat is told to diet and the very things that a perverted appetite craves are the ones "you must not eat." Obesity is unusual. It is like an endless chain. Eating wrong foods in the wrong way produces a perverted appetite. Then the appetite demands and craves the wrong foods and converts them into useless, embarrassing fat. Tablets Arbolone stops the perverted craving for the wrong foods, gives a normal appetite, eliminates the fat-forming elements through kidneys and bowels, dissolves the fatty surplus and sends it back through eliminative channels, causing improved health and strength. One or two tubes will convince any fat person that Arbolone is what they need to reduce safely and successfully. Sold by thirty thousand druggists in sealed tubes with full directions.

Owing to different arrangements there will be no service at the Burial plot Sunday afternoon, as announced Thursday.

STOMACH TROUBLES ARE DUE TO ACIDITY

Tells Safe, Certain, Speedy Relief for
Acid Indigestion.

So-called stomach troubles, such as indigestion, gas, sourness, stomach-ache and inability to retain food, are probably nine out of ten simply evidence that excessive acidity of acid is taking place in the stomach, causing the formation of gas and acid indigestion.

Gas distends the stomach and causes that full, oppressive, burning feeling sometimes known as heartburn, while the acid irritates and inflames the delicate lining of the stomach, the trouble lies entirely in the excess development or secretion of acid.

To stop or prevent this excess of the food contents of the stomach and to neutralize the acid, and make it bland and harmless, a teaspoonful of bisulphate of magnesia, a good and effective corrector of acid stomach, should be taken in a quarter of a glass of hot or cold water after eating or before going to bed.

This sweetens the stomach and neutralizes the acidity in a few moments and is a perfectly harmless and inexpensive remedy to use.

An antacid, such as bisulphate of magnesia, which can be obtained from any druggist in either powder or tablet form, enables the stomach to do its work properly without the aid of artificial digestants. Magnesia comes in several forms, but the certain to ask for and take only Bisulphate of Magnesia, which is especially prepared for the above purpose.

GROTON IRON WORKS PAYS
INSTALLMENTS ON CLAIMS

The check for the secured creditors which the receivers of the Groton Iron Works were ordered to distribute some time ago by Judge Kellogg in the superior court, were mailed Wednesday. The checks are for 20 per cent. of the claims which have been allowed.

There are a number of contented claims of creditors which are assigned for a hearing on May 4th in Norwich before State Referee Joel H. Reed, but they have all been adjusted out of court.

There was a conference in Bridgeport this week between lawyers representing the firm of Waller, Waller, Avery & Co., and representatives of the United States Shipping board, concerning some phases of the Groton Iron Works affairs.

A despatch from Washington Thursday said that the government's investigation of the Groton Iron Works affairs would be held early next week.

So far as the present status of the Groton Iron Works is concerned, that has been settled by the superior court and agreements having been fulfilled, it is not anticipated that the ownership of the plant will be the subject of any proposed investigation.

BLAKELEE AND HALL NAMED— FORMER NOT A CANDIDATE

State republican clerks had small state sensation early in the week, when a New Haven paper announced that former Lieut. Gov. Dennis A. Blakelee was coming to Groton as a candidate for nomination for governor again.

New Haven story had it that Blakelee would be supported by Col. Isaac M. Ullman and H. Henry Roraback, while to run for lieutenant governor, the next name to Blakelee, Col. W. H. Hall of South Willington was suggested. The same writer has Senator Templeton of Waterbury slated for lieutenant governor, "with prospects of greater honors in the future."

The New Haven story was very interesting but evidently not very accurate. The same New Haven paper now announces that "former Lieut. Gov. Dennis A. Blakelee says that under no circumstances will he be a candidate for the republican nomination for governor."

PENN ANNUAL TWO DAY CARNIVAL BEGINS TODAY

Philadelphia, April 29.—With the Oxford-Cambridge track team from England as the star attraction, the University of Pennsylvania inaugurates its annual two day relay carnival here tomorrow. Every indication is that the contest will be the greatest intercollegiate track and field games ever staged in the United States. In addition to the entries of the leading British variety athletes almost every college or university of prominence in the country will have team or individual entrants. An additional aspect is added to the games by the appearance of a competitor from the Toronto university of Canada.

All told, more than 300 schools and colleges will compete in the various events. Officials of the University of Pennsylvania predicted a larger attendance than was the case in 1914, when the Oxford team won the four mile race, the feature event of that year's contest. Weather forecasters said night would be fair and warmer weather and the high and warm sun dried out the track at Franklin field today to an extent that led to the athletic sharpshooters to look for a fast track and post.

ably new records in several events. Chief interest centers in the performances of the visiting English runners and their efforts against the pick of the American colleges will be watched closely. Oxford and Cambridge will compete in three events tomorrow, having one entrant in the 440 yard low hurdles, the three mile run and the 440 yard race in the 440 yard low hurdles. Captain S. G. D. Rudd, of Oxford, a Rhodes scholar from St. Andrews college, South Africa, will be the English representative in the 440 yards hurdles race and will face among other star hurdlers Thompson, of Dartmouth, Wait, of Cornell, Adams, Princeton, and Kilby, of Redlands university, California. All these runners have covered the quarter in close to fifty seconds. Rudd, while he has had little experience over the hurdles, ran a close second to Butler of Cambridge, who won the 440 yard race in the last Oxford-Cambridge games on March 27 in 49.3-5 seconds.

A. E. Montague, of Oxford, will be the British entrant in the special three mile run which has been placed on the programme to give the English runner a chance to show his ability in his specialty. Montague is said to be one of the greatest steeplechase runners ever bred in England in years. His leading opponent tomorrow, it is thought, will be found among the quintet composed of Bond and Campbell, of Cornell; McMahon, Massachusetts Tech; Nightengale, New Hampshire State, and Hiley, Drexel Institute, this city. In the Oxford-Cambridge meet Montague won the three mile race by more than 80 yards in 14 minutes, 45.3-5 seconds.

In the distance medley relay in which four men will run respectively 440 yards, 880 yards, three-fourths of a mile and one mile, the combined Oxford-Cambridge team will face the best quartet available at more than a dozen eastern and middle western universities, including Wisconsin, Pennsylvania, Harvard, Chicago, Yale, Princeton, Iowa State, Cornell and Pennsylvania State. The winning team will be awarded the American college championship for 1920 in this event.

Other events on Friday's programme include the American medley sprint championship, the Pentathlon individual contest and a number of track and school and interschool championships.
